The EU-GCC Clean Energy Co-operation

The **GCC Arab states** are among the world leading oil and gas producing and exporting countries.

The **EU**, as one of the world's major importers of hydrocarbons and the leading world proponent of climate change prevention, has a well founded interest to cooperate with the GCC countries and support them in successfully **addressing clean energy issues**.

In this context, the **EU and the GCC regions** are seeking to establish a long term strategic energy relationship.

EU-GCC Clean Energy Network

European Commission

Cooperation Council for the Arab States of the Gulf

The Network Mission

The EU - GCC Clean Energy Network aims to respond to the common interests of stakeholders, both in the GCC and the EU, active in the field of clean energy.

The Network is the practical instrument for development of concrete cooperation activities on clean energy, including the related policy and technology aspects, among various players across the EU and GCC countries.

The Network's focus is in particular on these areas:

- ✓ Renewable Energy Sources
- ✓ Energy Demand Side Management & Energy Efficiency
- ✓ Clean Natural Gas & related Clean Technologies
- ✓ Electricity Interconnections & Market Integration
- ✓ Carbon Capture & Storage

What we Offer

- ✓ ***Networking & Partnership*** *development with a wide range of EU and GCC stakeholders, including policy-making bodies and industry players;*
- ✓ ***Development of Joint Projects & Exchange of Researchers*** *between EU and GCC regions;*
- ✓ ***Providing an information platform*** *on clean energy regulatory frameworks, policy backgrounds, ongoing and planned initiatives and projects, funding possibilities etc.;*
- ✓ ***Expert events,*** *thematic workshops, seminars, training sessions & high-level conferences;*
- ✓ ***Publication*** *of articles in scientific journals on clean energy in the EU, GCC regions;*
- ✓ ***Liaising*** *with initiatives in the region in related fields and* ***coordination*** *with other networks/instruments (e.g. under the EU FP7);*
- ✓ ***Securing close contact*** *with participants from the region as well as the European Commission headquarters in Brussels;*

Network's benefits

Participation in an established network of important GCC & EU entities active in the area of clean energy supported by the EU and GCC bodies.

More possibilities for close targeted cooperation & working contacts.

Increased knowledge & latest information on possibilities for joint projects in energy, including through the EU's FP7.

SEVENTH FRAMEWORK PROGRAMME

Detailed information and better understanding of EU and GCC policies and frameworks related to clean energy.

Promotion & facilitation of a number of joint demonstration and pilot projects.
