

The European Energy Centre (EEC)

Promoting best practice in Renewable Energy since 1975

Renewable Energy Training and European Conferences with the United Nations Environment Programme (UNEP), leading European Associations and Universities.

VISIT www.EUenergyCentre.org

Training Courses, Launching the Green New Deal with the United Nations (UNEP)

- International Conferences on Renewable Energy organised with the United Nations, under the support of Ministries and the Italian Ministry of Environment.
- Publication of technical journal with the United Nations UNEP and the intergovernmental International Institute IIR based in Paris.
- Working closely with leading associations such as the European Association AREA - which represents 19 national associations in EU, 9000 companies and 120,000 individuals working in the field.
- Working with the Energy Technology Partnership to provide half funded training courses in renewable energy and energy efficiency
www.EUenergycentre.org/training
- Leading training courses (some of which are subsidised) organised at universities throughout the UK & Europe.

VISIT www.EUenergyCentre.org

Renewable Energy Training

- Up to 5000 participants attend courses organised by the EEC every year
- 36 years of European activity
- 22 Universities work with the EEC across Europe
- Courses include (but not only): Energy Efficiency, Solar Photovoltaic, Renewable Energy Management & Finance, Wind Power, Heat Pumps, Biomass, Wave & Power, CHP, Marketing for Renewable Energy.
- In Scotland the EEC works with several ETP member Universities.

The Galileo Master Certificate

the internationally recognised Certificate for the Renewable Energy Sector

GALILEO MASTER CERTIFICATE

The Internationally Recognised Certificate for the Renewable Energy, Heating & Cooling Sectors

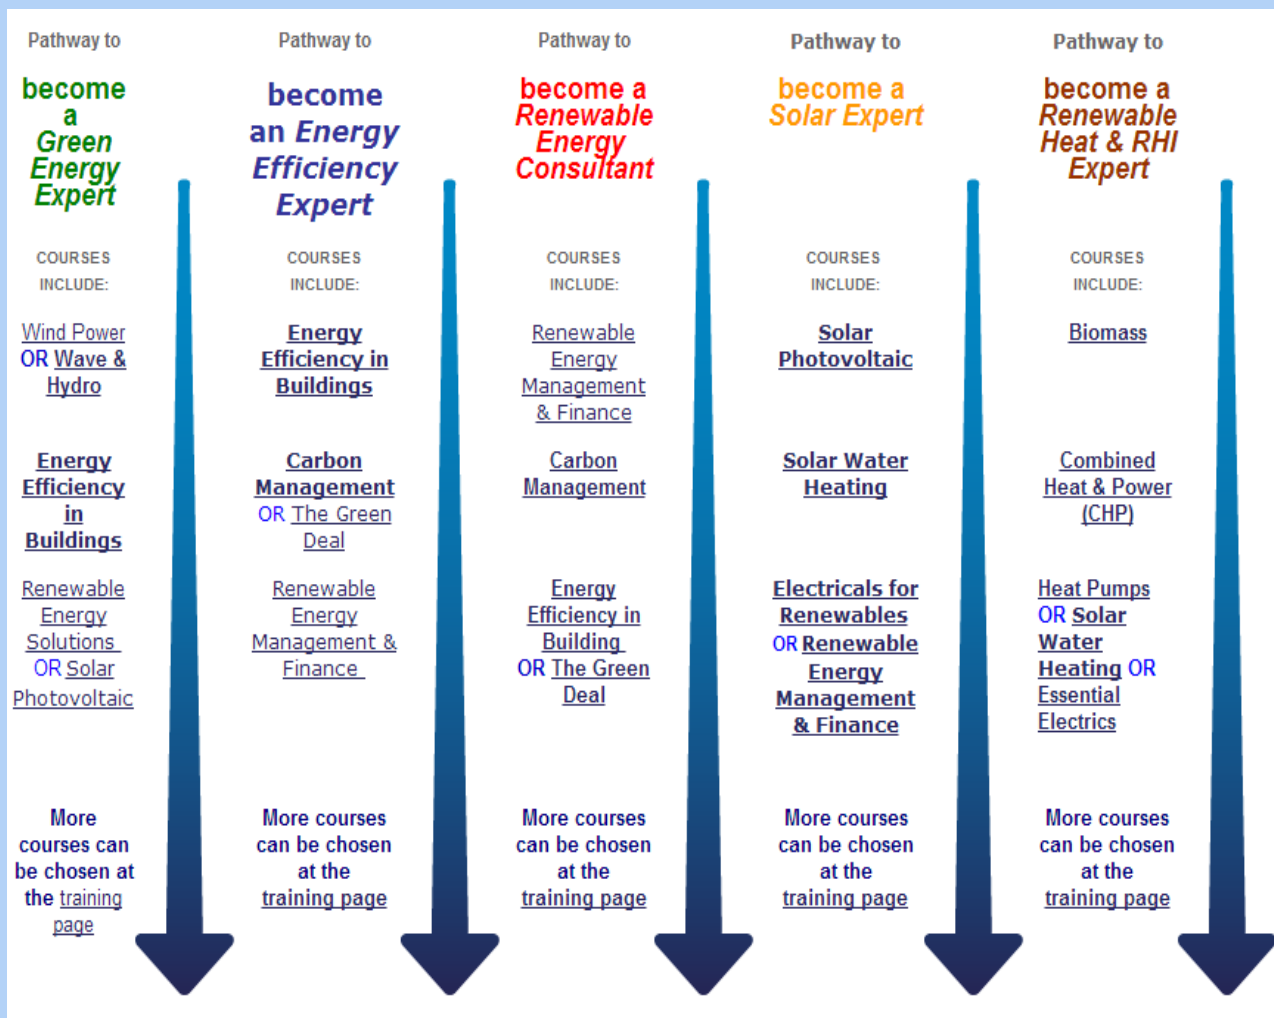

- INTERNATIONAL CONFERENCES
- MAJOR UNIVERSITIES
 - 
Heriot-Watt University
 - 
Coventry University
 - 
Glasgow Caledonian University
- LEADING TRAINING
 - 
UNITED NATIONS - UNEP
EUROPEAN ENERGY CENTRE
CENTRO STUDI GALILEO
*Promoting best practices
in Renewable Energy since 1975*
- WORKSHOPS
